PRABANJAN S

Angular Developer & Front-End Engineer | CCNA Certified

Hosur, Tamil Nadu | prabanjansakthibabu@gmail.com | linkedin.com/in/prabanjan-s | github.com/prabanjan127

PROFESSIONAL SUMMARY

Front-End Engineer with specialized focus on Angular, TypeScript, RxJS, and enterprise architecture. Experienced in building scalable, responsive admin portals and operational dashboards with PrimeNG, Angular Material, lazy loading, and role-based access control (RBAC). Certified in CCNA with strong networking and secure front-end coding foundations.

CORE TECHNICAL SKILLS

Front-End: Angular (14-21), TypeScript, RxJS, JavaScript (ES6+), HTML5, CSS3/SCSS, PrimeNG, Angular Material

Architecture & State: Reactive Forms, Services, Signals, RxJS Observables, REST APIs, JSON, Postman

Back-End & DB: .NET, C#, ASP.NET Web API, Node.js, SQL, MySQL, Database Normalization

Tools & Ops: Git, GitHub, VS Code, Linux/Bash, Tailwind CSS, Vite, Postman, Vercel

Certifications & Sec...: Cisco Certified Network Associate (CCNA), Secure Coding (OWASP, RBAC)

PROFESSIONAL EXPERIENCE

Software Engineer (Front-End / Angular) Kumaran Systems | Chennai, India

- Developed and maintained Angular enterprise modules for a freight-logistics admin portal using TypeScript, RxJS, Angular Material, PrimeNG, and REST APIs.
- Implemented role-based access control (RBAC), reusable components, lazy-loaded modules, and permission-driven UI.
- Developed reactive data tables with PrimeNG featuring multi-column sorting, pagination, and RxJS debounce filters.
- Collaborated with backend teams to integrate RESTful endpoints, optimizing payload delivery and error handling.
- Standardized reusable UI component library, reducing feature implementation turnaround by 30%.

FEATURED ENTERPRISE PROJECTS

Angular Enterprise Freight & Logistics Operations Dashboard Angular 20, TypeScript, RxJS, Material

- Responsive operations portal handling fleet dispatches, load schedules, and driver assignments.
- Implemented multi-tier authentication mock (Admin, Dispatcher, Viewer) with distinct permission-based views.
- Search, filters, pagination, RxJS refresh streams, and live status badges.

Razorpay Payment Gateway Integration Architecture JavaScript, REST APIs, Webhooks

- End-to-end checkout flow with server verification, webhook signature auditing, and automated receipt generation.

Smart Bus Transit Reservation Portal Full-Stack Architecture, REST APIs

- Real-time seat layout selector, schedule queries, and dynamic fare computation.

EDUCATION & CERTIFICATIONS

Bachelor of Engineering (B.E.) Graduated with First Class Honors

- CCNA (Cisco Certified Network Associate) - Routing, Switching, Network Security Protocols
- Cybersecurity & Secure Web Engineering Specialist Coursework
